Consulting

Take advantage of our many years of experience

Since regulations and directives in aviation legislation are constantly changing, the need for advice is correspondingly great. We will gladly answer questions concerning aviation legislation and we will address any individual issues you may have. From the purchase and sales of executive jets to quality management, audits, training courses through to taking care of flight operations in their entirety, to include maintenance.

The service we provide:

- certifications
- quality management
- audit
- training
